PROFILE

A highly motivated software QA tester, possess problem-solving skills and pays attention to details. Looking to apply my skills to ensure software functionality, usability and software reliability by conducting quality assurance, including software test case development and execution, implementation of test plans and bug tracking.

EXPERIENCE

Software QA Tester – Penalogue

Penalogue is a social network for poetry that allows you to write and share poems with a global audience.

Performed manual exploratory test on penalogue mobile application and also prepared detailed test case documents and bug list documents.

<https://www.penalogue.com>

Software QA Tester

PHPTRAVELS is PHP and MySQL-based travel agency software designed for the online travel and booking industry.

Performed exploratory test on phptravels website and also prepared detailed test case documents and bug list documents.

Software QA Tester

Facebook is an online social media and social networking service.

Performed a manual web based testing for facebook and detected issues on the registration module (create new account) and prepared bug list document.
